

# GET INTO THE SPIRIT IN A QUINTREX

*Quintrex has recently unveiled its Sea Spirit cabin range which is aimed at satisfying the needs of adventurous young families and budget-conscious anglers. Setting the benchmark a bit higher in the Sea Spirit range, the new models now come with 3mm topsides and 4mm hull bottoms as standard, a compact cabin and a rear lounge... perfect for weekends away with the family or long fishing trips with mates.*

**T**he new Sea Spirit range uses the renowned Quintrex marine-grade aluminium to ensure a top quality and long lasting product. The Blade Hull cuts through water faster and easier than ever before and offers the strength and shape of fibreglass without the weight. Together with the upgrade to the topside and bottomside sheets, these features are designed for a quieter-riding boat.

Quintrex boats feature innovative, technology-driven hulls. Based on its unique ability to stretch-form aluminium, the curve of the side sheets deflects spray and keeps passengers dry. Whether you like fishing, family cruising, camping or skiing, a Quintrex Sea Spirit cabin boat will work for you.

Available as 510, 530 and 570, and with so many features, you can choose a Sea Spirit to fit your exact requirements. The large cabin bunks are perfect for those longer trips as they offer storage and shelter and are the perfect spot for the kids to relax on the way home.

Quintrex National Account Manager, Cameron Wood, said these boats come complete with all the fundamentals for a day out on the water while offering the versatility to please the entire family.

"For fishos, the aluminium side pockets and rod holders hold all your fishing gear while the large side decks are comfortable to sit on and lean against when reeling in your catch," Cameron explained.

"For the laid-back boaties, the rear lounge is perfect for relaxing and taking in the sun but it can also be folded up against the transom to create extra deck space while fishing.

"If you're after adventure, option up the Sea Spirit to include ski hooks, ski pole and hydraulic steering for a day of fun out on the water," Cameron said.

The Quintrex Sea Spirit is available as an Instant Boating Package including boat Quintrex trailer and Evinrude engine. You can ensure peace of mind with a Quintrex Instant Boating Package as Quintrex's packages are pre-delivered and factory fitted by highly-qualified technicians.

Quintrex also now offers an additional two-year bonus structural warranty after the existing three-year warranty expires.
